

LIGHTCOUNTING

ACCESS OPTICS MARKET FORECAST – NOVEMBER 2022

Abstract..... 3

Executive Summary 4

 Access optics market forecast overview4

 China continues to play a dominant role in access markets.....7

 Will next generation access networks be extra-terrestrial?8

 Principal changes to the forecast..... 11

Chapter 1: Broadband traffic and subscriber growth 13

 Traffic growth will continue, with mobile gaining ground on fixed 13

Mobile broadband subscriptions predominate globally 14

Mobile video, 5G smartphone adoption, and FWA drive mobile traffic growth 14

 5G deployment will drive fronthaul spending..... 16

China leads the world in 5G deployment..... 17

 FTTx deployment and subscriber growth worldwide..... 18

 Government spending drives investment in FTTH 20

The U.S. government launches its biggest broadband initiative yet..... 20

China leads the world in FTTx deployment 22

Chapter 2: Wireless Fronthaul and Backhaul forecast 24

 Fronthaul revenue will cycle over the next five years 24

 WDM optics account for a quarter of fronthaul market revenues..... 27

 Fronthaul grey optics transceivers 27

 Fronthaul 10G/25G WDM transceivers 30

 10 km appears to be the sweet spot in terms of reach..... 32

 Bidirectional modules are substantial but not dominant 32

 Fronthaul sanity check 1: Network traffic versus fronthaul bandwidth 33

 Fronthaul sanity check 2: Transceivers per base station 34

 China again leads the world in fronthaul deployment..... 34

 Backhaul shows slower but steadier growth 36

Chapter 3: FTTx Optics Forecast 38

 The next wave of FTTx deployment has begun 38

 BOSAs dominate PON optics by volume shipped..... 43

 OLT optics account for a disproportionate amount of revenue 44

 10G PON is the highest growth area in the FTTx revenue forecast 44

 FTTx sanity check - OLT fill rates 45

FTTx sanity check - ONU ports shipped vs. FTTx homes connected.....	46
FTTx competitive landscape and pricing.....	47
China is the world's largest country market for FTTx	47
Chapter 4. Optical Distribution Network (ODN) evolution	49
ODN Technology Evolution	50

Abstract

LightCounting's *Access Optics* report describes the market outlook for both Fiber-to-the-X (FTTx) optics and wireless fronthaul, midhaul, and backhaul network optics.

Mobile fronthaul is again a fast growing segment of the optical modules market, driven by 5G mobile network deployment (as it was previously due to 4G deployment). 'Fiber-to-the-X' is a key enabler of today's high-speed Internet, and advanced broadband networks are considered essential infrastructure to support future economic growth. In 2022, we estimate these two types of access networks combined will consume an estimated 127 million optical devices, worth more than \$1.7 billion in revenue to components makers.

This report covers current and future network access architectures, service provider deployment strategies and trends, component requirements, and the products needed. A detailed Excel spreadsheet accompanies the report, providing a five-year forecast of wireless and FTTx optics shipments, prices, and revenues, broken down by speeds, reaches, and colors.

LightCounting Market Research

5820 Hallowing Drive, Lorton, VA 22079

LightCounting is a market research company focused on the in-depth study of high speed interconnects for the datacom, telecom, and consumer communications markets. Our research covers the whole supply chain from optical and semiconductor components, to modules, sub-systems and their applications in telecom and datacom systems.

Our industry reputation was built by providing solid market data and objective analysis to help industry executives in making tactical and strategic business decisions and see past all the market hype, rumors, press reports, blogs and other distortions that so often complicate and confuse many decision making processes.

This LightCounting market report contains material that is a confidential, privileged, company product for the sole use of the intended recipients being LightCounting clients and subscribers. Any review, reliance on or redistribution by others or forwarding without LightCounting's expressed permission is strictly prohibited.
